Biological Laboratory, College of General Education, Kyushu University, Ropponmatsu, Fukuoka, 810 Japan

Recently we described several new subspecies belonging to four *Eurema* species from Southeast Asia and New Guinea (SHIRÔZU & YATA, 1981). After publication, however, we noticed that six names of these new taxa were junior homonyms. Therefore, we propose here new names for these six homonyms as follows:

1. *Eurema brigitta sincera* SHIRÔZU & YATA, **nom. n.**, for *Eurema brigitta papuana* SHIRÔZU & YATA, 1981 (preoccupied by *Eurema candida papuana* (BUTLER, 1898))
2. *Eurema andersoni sadanobui* SHIRÔZU & YATA, **nom. n.**, for *Eurema andersoni inouei* SHIRÔZU & YATA, 1981 (preoccupied by *Eurema simulatrix inouei* SHIRÔZU & YATA, 1973)
3. *Eurema andersoni albida* SHIRÔZU & YATA, **nom. n.**, for *Eurema andersoni borneensis* SHIRÔZU & YATA, 1981 (preoccupied by *Eurema hecabe borneensis* (FRUHSTORFER, 1910))
4. *Eurema sarilata aquilo* SHIRÔZU & YATA, **nom. n.**, for *Eurema sarilata luzonensis* SHIRÔZU & YATA, 1981 (preoccupied by *Eurema hecabe luzoniensis* (LINNAEUS, 1764))
5. *Eurema sarilata perplexa* SHIRÔZU & YATA, **nom. n.**, for *Eurema sarilata bazilana* SHIRÔZU & YATA, 1981 (preoccupied by *Eurema alitha bazilana* (FRUHSTORFER, 1900))
6. *Eurema alitha novaguineensis* SHIRÔZU & YATA, **nom. n.**, for *Eurema alitha papuana* SHIRÔZU & YATA, 1981 (preoccupied by *Eurema candida papuana* (BUTLER, 1898))

We wish to thank to Dr. J. D. HOLLOWAY of the Commonwealth Institute of Entomology for his helpful advice and his kind reading of the manuscript.

Eurema 属 4 種に属する 6 亜種の新名 (白水 隆・矢田 脩)

最近、我々は、東南アジアおよびニューギニア産の *Eurema* 属 4 種に属する 10 新亜種を発表した (SHIRÔZU & YATA, 1981). しかし、これらのうち 6 亜種の新名は、すでに本属において先取命名されていることが判明したので、ここに上記 (1~6) のように新名を与えた。
